

COMBO ABDUCTOR / ADDUCTOR

ITEM CODE: PIN-ABDADD

The abductor / adductor is a bifunctional machine designed to work the gluteus and inner/outer thigh muscles. The machine has a starting angle adjustment system, activated by a lever on the side of the seat, which determines which muscle group to train and from which degree of openness to start the training. The machine is equipped with a support pad at knee height to ensure comfort and a correct position. And with a magnetic Smart Pin for load selection, which is also useful for blind people. The combination of round and oval tubes together with the matt black plate cover make the machine look very elegant. Weight stack of 70 kg.
