

FOLDABLE POWER RACK

ITEM CODE: PR-W

The Foldable Wall Power Rack is an innovative rack engineered for wall mounting. It can be folded outwards for space-saving storage, while retaining all the features and robustness of a standard power rack. Designed with a locking pivot hinge system, it meets all safety standards while remaining easy to install. The 44 cm distance from the wall facilitates the customer's installation needs by having a small footprint. Laser-cut holes (50 mm spacing) and laser-cut front 1-25 digits, for a total of 25 scaled numbers, allow the user extensive and precise positioning of accessories. Scratch-resistant, powder-coated finish.
